

ORAL SURGERY AND IMPLANTOLOGY

A.Y. 2022/2023

**CPD SECOND-LEVEL
COURSE**

Training objectives:

To provide practical theoretical learning on the problems of surgical and prosthetic rehabilitation phases in implant support.

Carrier opportunities:

Those who will complete the CPD 2nd level course in Oral SURGERY & Implantology will be able, independently of the laws in force in the various countries, to carry out their professional activity autonomously at private health facilities, in a dependent or free professional regime.

Teaching Method:

Theoretical and practical sessions will be integrated by practical session on artificial and animal models. The clinical surgery session would be performed during the course according to the calendar of practical lessons. The calendar of the lessons could be modified and adjusted, with adequate notice, due to the national and international scientific calendar.

Internships:

Istituto Stomatologico Toscano and its affiliated clinical centres
