

Dr. GIOVANNA MARAGLIANO - Curriculum Vitae

Born on 1966, she took degree in Medicine in 1990, at the Catholic University of the Sacred Heart of Rome. She achieved specialization in Neonatology in 1994 and then in Pediatrics in 1996, at the same University. In 2004 she achieved specialization in Anaesthesiology and Resuscitation at “Tor Vergata” University of Rome, where, in 2012, she also achieved specialization in Internal Medicine.

She worked from 1993 to 1996 as neonatologist at the Neonatology Division of Academic Hospital “A.Gemelli” of Catholic University of the Sacred Heart of Rome. In 1996 she won a public competition as neonatologist at S.Giovanni Addolorata Hospital of Rome, where she worked for 22 years, in the Neonatology Unit, always working in the NICU (III neonatal care level) and as responsible for the assignment of “*Neonatal Intensive Care Therapy*” from 2005 up to 2018. In the same hospital, she also directed Complex Operating Neonatology Unit with NICU from 2014 to 2016.

In November, 2018 she won a public competition as Director of Complex Operating Unit of Pediatrics, consisting in Neonatal Pathology and Pediatric wards, at Castelli Hospital - ASL RM6, where she’s been working up to now.

She is member of the Italian Neonatology and Pediatrics Societies (SIN and SIP), and member of Neonatal Pneumology and Infectivology Study Groups of the Italian Society of Neonatology.

She attended, as tutor neonatologist, at several stabilization courses in Rome and others Italian towns, and participated to approximately 80 neonatologic and pediatric congresses and courses either in Italy and abroad.

She’s been teaching Neonatology for 12 years (from 2007), up to now, at the degree course in Nursing Sciences, at Catholic University of the Sacred Heart of Rome.

Her specific professional interests are neonatal respiratory diseases (acute and cronic) and assisted ventilation; neonatal parenteral and enteral nutrition and neonatal infectious and haematologic diseases.

She is author of more than 50 scientific publications about neonatologic topics, on italian and international papers.
