

IMPLANT DENTISTRY

A.Y. 2024/2025

CPD SECOND-LEVEL
COURSE

AIM:

The University Master Program (CPD Course) in Implant Dentistry (UMID) is designed for the general dentist who has already taken the first step into the field of implant dentistry. You have already placed implants and now want to develop your practical skills and build up solid scientific knowledge to provide safe, appropriate and efficient treatments.

The 18-month modular Master Program (CPD Course)'s programme takes into account your time constraints and job responsibilities. The teaching mode is blended: a blended teaching approach combining on-site lectures and live distance learning. During the course of your studies, you will be required to travel five times to university centres, where you will attend live lectures, practical classes and live surgeries and grow from the input of our international lecturers, guest lectures and fellow students.

Partner: Istituto Stomatologico Toscano

Director: Prof. Ugo Covani

Co-Director: Dr. Simone Marconcini

Recipients and access requirements:

- Master's Degree in "Dentistry and Dental Prosthesis or other equivalent qualification class LM-46; EQF:7.
- Master's Degree in "Medicine and Surgery" or other equivalent qualification class LM-41; EQF: 7.

Teaching Method:

The teaching modality is blended: a mixed mode approach education that combines on- campus lessons and live distance learning. The first module will take place in live webinars and the other 5 in presence.
