

Bachelor's degree program in Biomedical Laboratory Techniques

Teaching: PROFESSIONAL LABORATORIES 1

SSD Teaching: MEDS-26/A

Responsible Teacher: [Fabbio Marcuccilli](#) _e-mail: fabbio.marcuccilli@unicamillus.org

Number of CFUs: 1

PREREQUISITES

Attendance of first-year classes.

EDUCATIONAL OBJECTIVES.

To make the student acquire technical-practical problem solving skills, in biological, physical and chemical risk contexts and in the pre-analytical phase of laboratory medicine. The professional laboratory provides an opportunity for the student to transfer theoretical concepts to practice.

PROGRAM

- Typologies of risk in the various laboratories of laboratory medicine.
- Relating on the pre-analytical phase of the various services of laboratory medicine

TEACHING MODALITY

Lecture series with direct field experience (FSC).

MODE OF LEARNING VERIFICATION

The student will be required to submit a final report on the activities carried out as per the syllabus, the paper of which will be evaluated not as a proficiency exam, but as a passing or failing grade.
