Career/Employment

Past

1998 – 2000 Director of Hemodialysis Center in Aprilia (Latina)
2000 – 2003 Medical Doctor in Department of Nephrology and Dialysis, “L. Parodi – Delfino” Hospital, Colferro (Roma)
2003 Resident fellowship Nephrology Clinic “Henry Ford” Hospital, Detroit, Michigan (USA)
2003 – 2011 Medical Doctor in Department of Nephrology and Dialysis, “S. Giovanni Evangelista” Hospital, Tivoli (Roma)

Present

2012 – July 2019 Medical Doctor in Department of Nephrology and Dialysis, “L. Parodi – Delfino” Hospital, Colferro (Roma)
July 2019 – December 2023 Director of Department of Nephrology and Dialysis, “L. Parodi – Delfino” Hospital, Colferro (Roma)
January 2024 – present day Director of Department of Nephrology and Dialysis, Azienda USL Roma 6

Honors, Awards and Grants

Cum Laude Medical School Diploma, 1994 and Post – Medical School in Nephrology on 1998.
Certificate of competence in Cardiovascular Echography in 2007 (refreshed every 5 years) and Ecography in Internal Medicine (2002, 2008, 2012, 2016).
Academic Master Degree in Economic Management in Public Health in 2013 (University of Rome “Tor Vergata”).
License as Associate Professor of Nephrology (2018)
Eligibility as Director of Nephrology and Dialysis Department
Director of SIUMB (Italian Society of Ultrasound in Medicine and Biology) School in Colferro (Roma)
Award from Serbian Association of Cardionephrology in 2017

Teaching

Academic teacher in post – degree Nephrology School as far as in Nurse Academic School
Academic teacher in post – degree Nephrology School of University of Rome “Tor Vergata”
Academic teacher of Echocardiography in Master Degree in Echography held by Scuola Superiore S. Anna di Pisa

Teacher and tutor in Nephrologic Ultrasound Courses as far as in Electrocardiography Courses for Nephrologists organized by Italian Society of Nephrology and Italian Society of Ultrasound in Medicine and Biology

Membership: Italian Society of Nephrology (SIN); European Dialysis and Transplant Association (ERA – EDTA); Italian Society of Cardiovascular Echography (SIEC), Italian Society of NephroCardiology (SINCAR), Cardio Renal Society of America (CRSA)

Publications: papers in PubMed 71 (Atherosclerosis, Clinical and experimental rheumatology, American Journal of Medicine, Journal of hepatology, International Journal of Cardiology, Thrombosis research, Cardiorenal Medicine, Journal of Nephrology, Heart Failure Reviews, Heart Failure Clinics, Therapeutics and Clinical Risk Management, Current Drug Metabolism, Indian Heart Journal, Kidney Diseases, BMC Nephrology, Clinical Kidney Journal, Clinical and experimental nephrology, Journal of Ultrasound, Advances in therapy); number of communications to scientific meetings: more than **250**; Books: **12**. **Google Scholar:** Total Citations: 4770, H-score: **36**; **i10 Index: 79** **Scopus:** H index-score: **29**; **Total citations: 2729**

Short report of my accomplishments

In this short report I would like to summarize my 20-year professional career from both the academic and medical point of view. Since 1994 have dedicated myself with passion and tenacity to research, training and clinical practice after Medical School in Rome, I have dedicated myself to clinical care of chronic kidney disease patients, especially concerning cardiovascular and critical care aspects of nephrology. At the same time I have collected great expertise in performing vascular access (artero – venous fistulas, Tenckhoff catheters positioning, temporary and permanent central venous catheters both for hemodialysis and nutrition) and ultrasound techniques (internal medicine and vascular ultrasound, cardiovascular ultrasound including trans – thoracic and trans esophageal echocardiography). I'm also skilled in diagnosis and treatment of arterial hypertension and I'm accountable as a responsible of out – patients arterial hypertension clinic.

I'm also skilled in performing renal biopsies according to actual national and international guidelines.

At present time I'm responsible for four out – patients clinics: one dedicated to diagnosis and treatment of atrial fibrillation thromboembolic prophylaxis in CKD patients, another dedicated to all ultrasound devices applied in nephrology, cardiology and internal medicine and the last two dedicated to peritoneal dialysis patients and end – stage renal disease patients (since I'm directly involved in vascular access planning)

I'm involved in clinical care of patients hospitalized in our Nephrology and Dialysis Department and I'm main referral for critical patients' renal replacement therapies in other hospital's departments (such as ICU's).

I'm directly involved in Nephrology Department Management such as budgeting planning, risk management programs, HTA assessment and home dialysis care (both hemodialysis and peritoneal dialysis)

I served as a Founding Member of the Steering Committee of the Cardionephrology and Echography Working Group of Italian Society of Nephrology and I am currently member of National Council of Italian Society of Nephrology (SIN) and responsible for educational programs of SIN itself

Over the last 15 years I have been either Coordinator or Principal Investigator of some national and regional project grants (Extend and Orion Study) collecting more 500,000 Euros. I have research and clinical experience in cardiorenal disease, critical care nephrology disease, ultrasound application in renal and cardiorenal patients. My actual research is mainly focused on cardiorenal and diabetic patients in CKD.

I'm actual member of Research Group Teams for treatment of hyperkalemia and for anticoagulation therapy with direct oral anticoagulants (DOACs) in Nephrology

I have published **139 papers reported in PubMed and indexed in Scopus**, I have given about 150 **national and international lectures and communications** during scientific meetings. **Total Citations in Scopus 2729; H-index: 29; and in Google Scholar total citations 4770; H- Score: 36.**

Guest Editor for Journal of Clinical Medicine with “Clinical Symptoms, Diagnostics and Treatments of Chronic Kidney Diseases (CKD)”

I am a member of the Editorial Board of “Giornale Italiano di Nefrologia”, “CardioRenal Medicine (Associate Editor also), “Case reports in internal medicine”, “, Blood Purification (Associate Editor) and International Journal of Urology and Nephrology

Founder and Scientific Director of CardioNefro Magazine

I have served and still serve as a "peer reviewer" for the following journals: "American Journal of Kidney Diseases"; "Nephrology Dialysis and Transplantation"; "Nephron"; "Clinical Nephrology"; "Journal of Nephrology"; "PloS ONE"; "Giornale Italiano di Nefrologia", "Heart Failure Reviews", "ESC Heart Failure", "BMJ Open", "Current Therapeutics", Clinical Journal of American Society of Nephrology", "Blood Purification", Cardio Renal Medicine", "International Journal of Cardiology", "New England Journal of Medicine", "American Heart Journal"

I have several national and international collaborations in the United States with the Cardio Renal Society of America (CRSA) and the Cardiology Department of Edmonton University. Finally, I have organized many national and international meetings, including the International Cardioneurology Meeting, a three days intensive meeting on Nephrology and its cross – link with other disciplines.

I have been Director of several Ultrasound and Electrocardiography Courses for young nephrologists under the endorsements of Italian Society of Cardiovascular Echography and Italian Society of Nephrology.

WHAT OTHERS THINK OF LUCA DI LULLO

Opinion Leader in CardioNephrology. Good speaker, teacher and tutor. Good organizational and managerial skills, as well as an aptitude for coordinating team work. Excellent human qualities, from generosity to team spirit, contagious enthusiasm. Good knowledge of written and spoken English language. Average knowledge of written and spoken French and Spanish language

PARTICIPATION IN TV BROADCASTS

Regional and National TVs.

A handwritten signature in black ink, appearing to read "Luca Di Lullo". The signature is written in a cursive style with a large initial 'L'.
