## JOB PROFILE

Professional with many years of experience in Medicine, combined with solid training in General Medicine/Family Medicine and a strong aptitude for continuous learning. Able to both collaborate profitably with the team and operate independently when required, he stands out for his excellent organisational, interpersonal and time management skills as well as solid skills in the fields of scientific dissemination, teaching and organization of cultural events. Thanks to his professional career he has developed practical skills, which combined with theoretical knowledge, problem solving skills and his features predisposed to train and consolidate the team, have made him a professional capable of adapting to the different work situations faced so far.
