EDUCATION

1988: Degree in Medicine, summa cum laude Catholic University Medical School, Rome
1988-92: Resident in the Institute of Neurology, Catholic University Medical School, Rome
1992: Board Certification in Neurology summa cum laude Catholic University Medical School, Rome
2005: Board Certification in Physical Medicine and Rehabilitation, “Magna Grecia” University, Catanzaro
2011: PhD in Advanced Technology in Rehabilitation Medicine, Tor Vergata University
2015: Master in Chronic Pain Treatment, La Sapienza University of Rome, S. Andrea Hospital

EMPLOYEMENT HISTORY

Present position:
Director, UOC1 and Spinal Cord Unit, IRCCS Fondazione S. Lucia, Rome, Italy
Head of the Spinal Rehabilitation (SpiRe) Laboratory

2013-present: Professor of Spinal Cord Injury Medicine, Tor Vergata University of Rome, Specialization School of Physical Medicine and Rehabilitation
2010-present: Professor of Spinal Cord Injury Medicine, Campus Biomedico University of Rome, Specialization School of Physical Medicine and Rehabilitation
2010-present: Professor of Neuroanatomy, Tor Vergata University of Rome, School for Speech Therapists
2001-present: Professor of Neuroanatomy, Tor Vergata University of Rome, School for Physical Therapists
1997-2000: Professor of Neurology, Tor Vergata University of Rome, School for Nurses

1992-96: Professor of Neurological Rehabilitation, Ospedale S.Giacomo, School for Physical Therapists

HONOURS

2015: Invited reviewer for the Catalan Agency for Information, Assessment and Quality, CAHIAQ: the 19th TV3 Marató Call on Acquired Spinal cord and Brain Injuries.

2018: Invited reviewer for Wings for Life grant proposals, 2018 call.

2020: Member of the Scientific Advisory Board of Stoke Mandeville Spinal Research (SMSR)

2019-present: Vice President of the Italian Society of Spinal Cord (SIMS – Società Italiana del Midollo Spinale)

2016-present: Chair of the Scientific Committee of the International Spinal Cord Society

RESEARCH PROJECTS

Direction or participation in the activities of a research group characterized by collaborations at national or international level

Multicenter project: Italian Group of Epidemiological Study of Spinal Cord Lesions (GISEM) (<http://salute.regione.emilia-romagna.it> / documentation / conferences-and-seminars / epidemiology-of-myelolesions-in-emilia-romagna-bologna-26-january-2012 / 02_franceschini.pdf) (see first article page) from 01-01-1997 to 01-01-1999

International multicentre project: Development and validation of a scale for the assessment of walking for patients with spinal cord injuries, of which he is the referent for the I.R.C.C.S. S. Lucia (WISCI: Walking Index for Spinal Cord Injury) in collaboration with prof. J. Ditunno, Thomas Jefferson University, Philadelphia, from 01-09-1997 to today

International multicentre project: Evaluation and validation of a new independence scale for patients with spinal cord injury: Spinal Cord Independence Measure (SCIM), in collaboration with prof. Amiram Catz (Loewenstein Hospital Rehabilitation Center, Israel). from 01-01-2002 to 31-12-2005

Class III international multicenter study on Vardenafil for the treatment of erectile dysfunction of patients with spinal cord injury (Glaxo-Smith-Kline). from 01-01-2002 to 31-12-2003

International multicentre study for the evaluation and validation of a new independence scale for patients with spinal cord injury: International Age- and Gender- Controlled Model for the Spinal Cord Injury Ability Realization Measurement Index (SCI- ARMI), in collaboration with prof. Amiram Catz (Loewenstein Hospital Rehabilitation Center, Israel). from 01-01-2012 to 31-12-2014

National multicentre project CCM 2012 - "Taking care of people with spinal cord injury in the Italian regions: implementation of integrated care pathways in the hospital and territory and management tools". from 01-01-2013 to 31-12-2014

International multicentre project, “European Multicenter Study about Spinal Cord Injury (EMSCI)”, clinical and neurophysiological evaluation protocol of patients with spinal cord lesions. (<http://emsci.org/index.php/members>) from 01-01-2013 to today

European research project, European Union Seventh Framework Program, FP7-ICT-2013-10, ID 661626SYMBITRON: Symbiotic man-machine interactions in wearable exoskeletons to enhance mobility for paraplegics (<https://www.symbitron.eu/consortium/>) from 01-10-2013 to today

European research project, European Union's Horizon 2020 research and innovation program under the grant agreement No 681094, NISCI: Nogo-A Inhibition in acute Spinal Cord Injury (<https://nisci-2020.eu/index.php?id=1510>) from 01-01-2016 to today

International multicentre project, sponsored by the Rick Hansen Institute: Access To Care And Timing (ACT) Project: Level 1 Process Mapping Survey - Rehabilitation Care. Care Journey For Patients With Traumatic Spinal Cord Injury (SCI) from 01-09-2016 to today

International and national research projects, admitted for funding on the basis of competitive calls that provide for peer review

NEURON JTC 2016 'External Insults to the Nervous that is co-funded by the European Commission. SILENCE Spinal Cord Injury-induced Systemic Maladaptive Immune Response and Autoimmunity to Central Nervous System Antigens - European Network Approach. **Principal Investigator for S. Lucia Foundation. Funds assigned 240,000 euros.** <https://www.era-learn.eu/network-information / networks / neuron-cofund / call-for-proposals-for-european-research-projects- on-external-insults-to-the-nervous-system / spinal-cord-injury-induced-systemic-maladaptive-immune-response-and-autoimmunity-to-central-nervous-system-antigens-european-network-approach> from 01-01-2016 to today.

Italian Ministry of Health Research Project RF-2019-12369396: “DiSCloser: Unlocking recovery potential of arm sensorimotor functions after spinal cord injury by promoting activity-dependent brain plasticity and modeling the causal relationship between brain plasticity and recovery of function “ **Head of Unit 2. Total Grant 450,000 euros. Funds assigned to the unit 240.000 euros.**

MAIN FIELD OF INTEREST

Bladder management in spinal cord injury and other neurological disease.

Development of spinal cord injury patients outcome scales.

Gait analysis of spinal cord injury.

Epidemiology and outcome evaluation of traumatic and non-traumatic Spinal Cord Injury

Development of exoskeletons
