

Master Program: TMD & Maxillofacial Rehabilitation

Module 1 – Diagnosis of Temporomandibular Disorders (4 sessions)

January 26–29, 2026, 6:30 PM–10:30 PM

Faculty: Prof. Cascone, Prof. Ambra Michelotti, Prof. David Angelo, Dr. Francesco Maffia, Prof. Fabrizio Spallaccia, Dr. Tomasz Marciniak, Dr. Valerio Palmerini

- Introduction to the master – DC/TMD Diagnostic Criteria (ITA, English version available)
- Surgical diagnostic criteria (ENGLISH) – Trauma and Malformations (hypercondylia) (ITA)
- Trauma and malformations 2 (ITA, English version available) – Clinical assessment tools and decision-making algorithms (ENGLISH)
- Evidence in rehabilitation of temporomandibular disorders (ITA, English version available)

Module 2 – TMJ-Cervical Relationships and Posture (4 sessions)

February 16–19, 2026, 6:30 PM–10:30 PM

Faculty: Dr. Mario Gonzalez, Dr. Enrique Gilsanz Caceres, Dr. Valerio Palmerini, Dr. Razvan Muresan, Dr. Massimiliano Mancini, Dr. Gianluca Ceravolo

- Biomechanical relationships between TMJ and cervical spine (ITA)
- Biomechanical relationships between TMJ and skull (ENGLISH, Italian version available)
- Postural assessment in the cranio-mandibular field (ITA)
- Thoracic manipulation techniques (ENGLISH, Italian version available) – Therapeutic exercises for cervical spine and TMJ (ITA, English version available)

Module 3 – Maxillofacial Surgery and Rehabilitation (4 sessions)

March 16–19, 2026, 6:30 PM–10:30 PM

Faculty: Prof. Cascone, Dr. Paolo Arangio, Dr. Francesco Maffia, Dr. Valerio Ramieri, Dr. Tomasz Marciniak, Dr. Filipa Marques Sousa

- Minimally invasive and non-invasive TMJ surgical techniques (ITALIAN, English version available)
- Introduction to orthognathic surgery (ITALIAN, English version available)
- Physiotherapy after orthognathic surgery (ENGLISH, Italian version available)
- Post-surgical rehabilitation: the Portuguese experience (ENGLISH)

Module 4 – Basic Anatomy and Physiology (live in Lisbon)

Tutors: Dr. Marcella Sarkis, Prof. David Angelo, Dr. Valerio Palmerini, Dr. Fabrizio Spallaccia, Dr. Filipa Marques Sousa

SESSION ENTIRELY IN ENGLISH

TRANSLATIONS AVAILABLE: Italian, Polish

April 11–12, 9:00 AM–5:00 PM

- Anatomy of the TMJ and masticatory muscles
- Cranial nerves and orofacial innervation

- Mandibular and cervical biomechanics
- Clinical anatomy of the cranio-cervico-mandibular district
- TMJ surgical techniques (arthrocentesis, arthroscopy) – part 2
- Post-surgical rehabilitation protocols
- Cranio-mandibular rehabilitation and dry needling

Module 5 – ENT, Hearing, and Balance (4 sessions)

May 11–14, 2026, 6:30 PM–10:30 PM

Faculty: Dr. Domenico Grasso, Dr. Francesca Zelesnich, Dr. Federica Pranzetti, Dr. Federico Aloï, Dr. Marco Martini

- Tinnitus. Literature review and neurophysiopathology (ITA, English version available)
- Tinnitus and mandibulo-vestibular dysfunctions (ITA)
- Vestibular assessment from a rehabilitative perspective (ITA)
- Vertigo syndromes: assessment and therapy (ITA, English version available)

Module 6 – Neurology and Orofacial Pain (4 sessions)

June 15–18, 2026, 6:30 PM–10:30 PM

Faculty: Dr. Aldo Grammatica, Dr. Luisa Fofi, Prof. Fabio Araimo, Dr. Riccardo Rosa

- Dentistry in orofacial pain (ITA)
- Primary and secondary headaches (ITALIAN, English version available)
- Neurological management of chronic pain (ITA)
- Pain medicine and pharmacological therapy (ITA)

Module 7 – Physiotherapy and Manual Approach (4 sessions)

July 13–16, 2026, 6:30 PM–10:30 PM

Faculty: Dr. Elisa Moretti, Dr. Martyna Kumorek, Dr. Marco Martini, Dr. Tomasz Marciniak

- Scar treatment (ENGLISH)
- Post-surgical rehabilitation: clinical cases (ITA)
- Rehabilitation in TMD associated with complex pathologies (ITA)
- Pathophysiology and clinical aspects of bruxism (ENGLISH, Italian version available)

Module 8 – Physiotherapy and Manual Approach (live in Warsaw)

Faculty: Dr. Tomasz Marciniak, Dr. Weronyka Kruk, Dr. Valerio Palmerini, Dr. Gianluca Ceravolo, Dr. Massimiliano Mancini

September 26–27, 2026, 9:00 AM–5:00 PM

SESSION ENTIRELY IN ENGLISH

TRANSLATIONS AVAILABLE: Italian, Polish

- Manual techniques and myofascial therapy
- Active exercises and functional self-correction

- Rehabilitation in TMD associated with complex pathologies
- Post-operative maxillofacial physiotherapy

Module 9 – Research and Multidisciplinary Approach (4 sessions)

October 12–15, 2026, 6:30 PM–10:30 PM

Faculty: Dr. Valentina Deidda, Dr. Elisa Moretti, Dr. Luca Giannelli, Dr. Anna Sbicego

- Relationship between swallowing, breathing, and TMJ (ITA, English version available)
- Phonatory disorders and voice rehabilitation (ITA)
- The visual system and its influence on TMD (ITA)
- Critical analysis of scientific studies and clinical research in cranio-mandibular rehabilitation (ITA)

Module 10 – Imaging, Technologies, and Emerging Strategies (4 sessions)

November 9–12, 2026, 6:30 PM–10:30 PM

Faculty: Dr. Giuliano Mari, Dr. Francesco Zampilli, Dr. Valerio Palmerini, Prof. Piero Cascone, Dr. Elisa Moretti, Dr. Federica Pranzetti, Dr. Paolo Arangio

- Effective communication and biobehavioral psychotherapy in chronic pain (ITA)
- Diagnostic imaging of maxillofacial interest (ITA)
- Technology and innovation in cranio-mandibular rehabilitation (ITA, English version available)
- Master's thesis presentations (ITA, English version available)

Module 11 – Thesis in Rome

December 2026, 9:00 AM

NOTES:

- Next to each lesson, the language in which it will be delivered and available translations are indicated.
- Sessions with exclusive extra content are available in the student area at <http://www.formazioneintegrata.com>. Exclusive content is available in Italian and English, with subtitles in Italian, English, Spanish, Portuguese, and Polish.
