

UNICAMILLUS

Degree Course in Medical Radiology Techniques for Imaging and Radiotherapy

INTEGRATED COURSE: Seminar Activities / Information Technology (First Year)

Number of ECTS Credits: 2

SSD: MEDS-26/B (ex MED/50)

PREREQUISITES

Musculoskeletal anatomy, principles of physics of radiodiagnostic equipment, radiodiagnostic techniques and methodologies.

EDUCATIONAL OBJECTIVES

In-depth study of radiodiagnostic techniques and methodologies.

EXPECTED LEARNING OUTCOMES

Knowledge and Understanding

Through this course, the student will be able to:

- understand radiodiagnostic techniques and methods;
- apply patient management procedures;
- understand radiation protection regulations.

Applying Knowledge and Understanding

At the end of the course, the student will:

- be able to independently perform radiodiagnostic examinations using the acquired knowledge.

Communication Skills

At the end of the course, the student will:

- be able to correctly use appropriate technical terminology.

Making Judgements

At the end of the course, the student will:

- be able to make basic evaluations related to the topics covered.

Learning Skills

The student will have acquired appropriate learning skills and methods to further develop and improve their competencies, also through consultation of scientific literature.

COURSE PROGRAMME

Further exploration of topics covered during lectures through participation in ECM events, professional courses, or training courses provided by equipment manufacturers.

TEACHING METHODS

The course is delivered through classroom-based lectures.

ASSESSMENT METHODS

Grades are awarded upon completion of a written assignment, which the student may submit only after having attended at least 75% of the scheduled activities.

Assessment criteria include: acquired knowledge, autonomy of judgement, communication skills, and learning abilities.

SUPPORT ACTIVITIES

Students may request optional seminars to further explore specific topics of interest.

RECOMMENDED TEXTS AND BIBLIOGRAPHY

Additional materials will be provided during the course, and further reference texts will be indicated.
